

What is a School-Parent Compact?

A School-Compact for Achievement is an agreement that parents, students and teachers develop together. It explains how parents and teachers will work together to make sure all our students reach grade-level standards.

Effective School-Parent Compacts:

- Link to goals of the School Improvement Plan
- Focus on student learning skills
- Describe how teachers will help students develop those skills using high-quality instruction
- Share strategies parents can use at home
- Explain how teachers and parents will communicate about student progress
- Describe opportunities for parents to volunteer, observe and participate in the classroom, join the School Council and PTO.

How is the School-Parent Compact Developed?

The parents, students, and staff at Brewer Elementary developed this School-Parent Compact for Achievement. Teachers suggested home learning strategies, parents add ideas to make them more specific, and students told us what would help them learn. Meetings are held each year to review the Compact and make changes based on student needs.

Parents are welcome to contribute provide input at any time.

Building Partnerships

- Parents are invited to attend monthly parent workshops and activities sponsored at the school.
- Parents are invited to volunteer, participate and observe at the school and in their child's classroom.
- Parents are invited to visit the Parent Resource Room/Area to check-out materials to use with their child at home.

Communication about Student Learning

Brewer Elementary is committed to frequent two-way communication with families about children's learning. Some of the ways you can expect us to reach you are:

- Weekly homework folders
- Monthly "check-in note and phone calls"
- Updates on the school's website
- Grade level meetings on understanding student progress
- Parent-teacher conferences in November and March
- Current grades on the Parent Portal Canvas

Brewer Elementary School

School-Parent Compact 2019-2020
Revised August 1, 2019

Our Goals for Student Achievement District Goals

The Muscogee County School District will implement evidence-based Tier 1 instruction, a Multi-Tiered System of Support (MTSS), leadership development, and a culture of kindness.

Brewer Elementary Goals

1. 100% of teachers will be trained on personalized learning and aligning task meeting the rigor of the standard with 85% implementing with fidelity by May 2020 as measured by walk through's and student artifacts and work samples.
2. By May 2020, 100% of the teachers will be trained and implement the Second Step curriculum to increase our attendance by 3%.
(from 79.15 to 85.4).

Our Students:

Students are encouraged to participate in the educational process. A successful student takes ownership of his/her learning and sets high educational goals.

- Set goals for myself to succeed in school and reach for the stars in science and math.
- Practice my math facts each night at home to improve my speed and accuracy.
- Read science materials on my own and with my family every day.
- Work on my math and science skills at home, using the materials my teacher sends home.

Our Parents:

Parents are expected to participate in the education of their children. Without the cooperation and partnership between parents and school staff, we cannot effectively help a student reach his or her full potential. The major role of parents is to continually show the child that they are interested and supportive of how their child is doing in school.

- Use reading materials the teacher sends home each week to help my child gain knowledge in Science.
- Practice math strategies and activities the teacher sends home to improve my child's math skills.
- Communicate with my child's teacher regarding any questions or concerns about your child's individual goals for learning.
- Play numbers games with my child every week.

Our Teachers:

Teachers are expected to work with students and their families to support students' success in reading and math. Some of our key connections with families will be:

- Coordinate activities for Math and Science Night and share strategies with families on how to help students at home.
- Monitor student progress in reading and math and update parents frequently.
- Establish open lines of communication with parents concerning their child's school performance.
- Provide personalized learning experiences for every student.
