GOHS Awards SADD Grants to Help Save Lives

(Columbus, GA)-Students Against Destructive Decisions (SADD) can make a life or death difference for our students. As part of a continuous program to involve students in efforts to reduce injuries and death of young drivers, the Georgia Governor's Office of Highway Safety (GOHS) has awarded a \$2,000 highway safety grant to nine (9) high schools in the Muscofee County School district. These funds will be used to enhance existing SADD chapters and help reduce teen driver fatalities. GOHS believes that student input on solutions will help alleviate the problem of teen driver fatalities in Georgia.

with peers to prevent deaths and to change the perception that crashes are accidents. This is the premise for the efforts on the part of the GOHS to assist teens and their partnering agencies to plan and coordinate key teen driving issues, which includes operator inexperience, speed, safety belt use, and impaired driving conditions.

The MCSD SADD Chapters plan to conduct seatbelt checks and driving simulations in partnership with the Columbus Police Department, prom campaigns, and other highway safety activities using grant funds. In addition, each chapter will send its advisor, the president, and several members to a GOHS statewide leadership-training program. Participants will coordinate with other SADD chapters from across the state of Georgia.
