**What is the MCSD Improvement Plan?**

Much like travelers who use a map to reach their destination, the MCSD Improvement Plan provides a clear direction for its public school system. The MCSD Improvement Plan was created by stakeholders, parents, schools, community, central office and the school board. It includes annual measurable goals, specific strategies and frequent evaluations. It reflects a strategic use of resources in order to provide the best educational opportunities for all students.

**Your input is needed to update the  
MCSD Improvement Plan!**
